

Research

What is it? Why care? Where do I start?

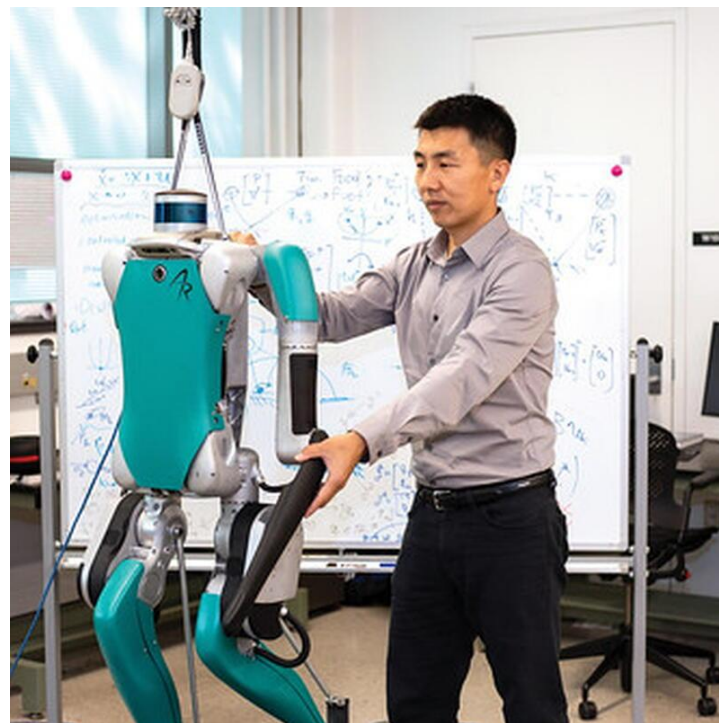

Matteo & Oliver

What is research?

1. Find a problem
2. Solve the problem
3. Publish your solution

Who can do it? Anyone!

In particular undergrad, MS, and PhD students alike

Why care?

Can be fun!

Can be exciting!

Contribute novel things to human knowledge

Looks good on the resume & GitHub

Research project on
cloud classification

Data Science Intern

Getting started

Labs at OSU

Robotics (Alan Fern)

Algorithms (Liang Huang)

Computer Vision (Fuxin Li)

Causality (Karthika Mohan)

Natural Language Processing (Stefan Lee)

Reinforcement Learning (Huazheng Wang)

& more!

Worried about talking to a prof directly?
Reach out to grad students!
Find reading groups!

Visit the AI/EECS Grad student
associations to network with students of
professors! Talk to your GTAs!
